PROFESSIONAL SUMMARY

BCA student at Uttam Group of Institutions, currently in the 5th semester, building practical experience in mobile application development with React Native and Expo. Developed a task management app with task creation, editing, completion, search, filtering, sorting, priorities, due dates and local persistence using AsyncStorage. Seeking a React Native internship to contribute to mobile UI development and continue learning through real project work.

TECHNICAL SKILLS

Mobile Development: React Native, Expo, Expo Go
Frontend: React.js, JavaScript, HTML5, CSS3
React: Functional Components, Props, State, Hooks (useState, useEffect, useFocusEffect)
Data & Storage: AsyncStorage, Local Storage, JSON
Backend & Database: Node.js (basics), PHP, MySQL
Programming: Python, Java
Tools: Visual Studio Code, npm, Expo Go

EDUCATION

Bachelor of Computer Applications (BCA)
Uttam Group of Institutions | Currently pursuing, 5th Semester

PROJECTS

TaskFlow — React Native Task Management Application

React Native | Expo | JavaScript | AsyncStorage

• Built a mobile task management application with add, edit, delete and mark-complete features.
• Implemented task priorities (High, Medium, Low), due dates and overdue task indicators.
• Added task search, status filtering (All, Pending, Completed) and sorting options.
• Used AsyncStorage to persist task data locally between app sessions.
• Developed reusable screen components and managed UI state with React Hooks.

MySyncApp — Offline-First Customer Management Application

React | Electron | Node.js

• Developing a desktop application for customer record management.
• Working on registration, login and customer-management workflows.
• Exploring local data storage and synchronization when connectivity is available.

RELEVANT KNOWLEDGE

React component structure, props and state, React Hooks, mobile layouts with Flexbox, JSON data, local storage and basic application debugging.

STRENGTHS

Problem-solving | Quick learning | Adaptability | Time management | Openness to feedback

DECLARATION

I confirm that the information presented above is accurate to the best of my knowledge.
